

JEET CHEMICAL

THERMAL CONDUCTIVE PASTE

"Faster & Safer Alternative to Soldering"

- No Soldering / No Torch
- Fast Application
- Strong & Durable Bond
- Improved Cooling Efficiency
- Operating Range : -80° C to 150° C
- Zero Corrosion, Long Life

High-Performance Thermal Interface Material

Copper Coolant Pipe → Deep Freezer Wall Bonding

-80°C

Min Temp

+150°C

Max Temp

40 min

Initial Set

Deep Freezer / Cooling Appliance Wall

Thermal Conductive Paste Layer

Copper Coolant Pipe

Base: Inorganic Silicon Oxide Compound
